I. What is this product?

Type: The fund is a AIF launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section "V. How long should I hold it and can I take my money out early?". The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual circumstances occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: null

The depositary of the fund is Liechtensteinische Landesbank AG. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at retail investors who pursue the objective of general asset accumulation / asset optimisation and have a medium-term investment horizon. This product is a fund for investors with no or little knowledge and / or experience in financial products. The investor can bear losses up to the complete loss of the capital invested and does not attach any importance to capital protection.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are will likely impact the capacity of the product manufacturer to pay you.

Other substantial risks: In addition, there are risks that are not included in the risk indicator. Comprehensive explanations can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years Example Investment: CHF 10,000		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Minimum	You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 1,450	CHF 1,920
	Average return each year	-85.5 %	-28.1 %
Unfavourable	What you might get back after costs	CHF 4,380	CHF 4,340
	Average return each year	-56.2 %	-15.4 %
Moderate	What you might get back after costs	CHF 10,620	CHF 11,500

Favourable	What you might get back after costs	CHF 28,410	CHF 54,730
	Average return each year	184.1 %	40.5 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could get back under extreme market conditions. The unfavourable scenario occurred when investing in the fund between Mar 2015 – Mar 2020. The moderate scenario occurred when investing in the fund between Apr 2014 – Apr 2019. The favourable scenario occurred when investing in the fund between Mar 2009 – Mar 2014.

III. What happens if LLB Fund Services AG is unable to pay out?

The default of LLB Fund Services AG has no direct impact on your payout, since the legal regulation stipulates that in the event of insolvency of LLB Fund Services AG, the special assets are not included in the insolvency estate, but remain independent.

IV. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	CHF 239	CHF 1,031
Annual cost impact (*)	2.4 %	2.0 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.84 % before costs and 2.80 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

These figures include the maximum distribution fee that the person selling you the product may charge (0.3 % of amount invested / CHF 30).

This person will inform you of the actual distribution fee.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.3 % of the amount you pay in when entering this investment. This is the maximum amount that you can be charged.	CHF 30
Exit costs	0.3 % of your investment before it is paid out to you.	CHF 30
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.6 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	CHF 160
Transaction costs	0.2 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 20
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n.a.

V. How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

This product has no minimum holding period. It is suitable for medium-term investments. You should therefore be prepared to remain invested with your investment for at least 5 years. However, you can return your investment on any Liechtenstein banking day and without penalty.
